ACNE, ASTHMA, AND OTHER SIGNS YOU MIGHT BE HALF DRAGON BY RENA ROCFORD PDF

Allyson fights acne, not trolls.

As an inhaler-carrying member of the asthma society, she just wants to meet the father who turned her mother into a paranoid, move-across-the-nation freak. Now she's trying to fit in at yet another school, but for the first time in her life, she has a best friend, Beth.

When Allyson accidentally spits fire at kidnappers in the mall, she realizes why her father isn't in the picture: she's half dragon. Her acne? Emerging scales. Her asthma? The side effects of her dragon's fire breath.

Instead of freaking out, unflappable Beth reveals her own troll heritage and explains how things work with the supernatural creatures hiding within the modern world of smartphones and skyscrapers.

When trolls kidnap a unicorn, Beth gets blamed. Allyson is determined to prove Beth's innocence and keep her friend off the unicorn chopping block. When they start looking for the kidnappers, they get a call from the last person they expect: Allyson's father. He tries to warn them off, but he's been put under a spell by the kidnappers to keep the victims from escaping. Nothing short of death can stop him.

Now Allyson must choose between killing the father she's always dreamed of, or letting her best friend die for a crime she didn't commit.

Flawed, but very Entertaining story!

By Jen Lapa

I found this book highly entertaining! Allyson is a very sympathetic character, as is her rather new best friend Beth. The explanation for Allyson's severe acne and asthma (of the title) was quite entertaining and actually fairly believable, as was the entire concept of the supernatural world that she finds herself a part of. What I did find hard to believe, however, was the fact that the girls are nearly kidnapped by trolls and escaped in part due to Allyson spitting fire at them – and Allyson doesn't share ANY of this with her mom! And later her Aunt Aggy disappears, leaving her vintage BMW behind, and it doesn't even occur to Allyson or Beth or anyone, despite other weird things that are going on, that she might have been kidnapped, which she was! Another obvious lapse in reality is when Mr June attacks Allyson on the school grounds, threatens to turn her hide into tack. Instead of being taken to the police to do something in response like file an assault charge against the crazed adult who attacked her, she is instead lead away to the Principal's office to be

reprimanded and given a band-aid.

I found some of the characters rather one-dimensional, but overall they were quite interesting and rather believable. John was probably one of my favorite characters! I especially like the scene where John looks at Allyson and winks.

Despite the overall good writing and plot, the chapter set at the campground involving the Goblin King, however, was rather confusing, and the entire episode seemed rather pointless. Perhaps it will come in to play more in later in a sequel to the book, as the ending definitely seemed to indicate that there would be some.

Despite the items I've mentioned, I found the book fairly well written and the storyline inventive and entertaining. I'd definitely recommend it, especially for a lighter read. I'm anxious to see what happens in any sequel(s)!

Action, Humor and Simply a Fun Read

By Tonja Drecker

Although I loved the cover on this one, after I read the blurb, I wasn't sure I'd like it or not. . .but since I already had it, I figured I might as well give it a go. And I'm so glad I did!

This is a modern day fantasy, grounded in the every day world as we know it. Well, except that humans aren't alone. Fantastical creatures--unicorns, dragons, trolls, and so many others--live among us but look so human, no one except for their kind can tell the difference. Allyson is just about to turn fifteen and has never given a second thought to fairy tales or anything of their kind, but when she spits fire and grows scales, her eyes are opened.

This is such a fun tale. Within the first pages, a normal, teenage shopping mall excursion turns into an attempted kidnapping with dragons and trolls. Not much time is spent on getting to know Allyson first, but it's not necessary. Her character is sympathetic from beginning on, and her shock about life unfolding around her is a delight to experience right along with her.

The plot is stuffed full of action, and poor Allyson not only struggles with her new-found dragonness, but fights off all sorts of creatures who are out to get her. It was easy to get caught up into the story, but hard to put it down. Especially since every time it appeared she and her best friend were getting somewhere, luck would seem to blow up in their faces. But then, the two are a bit reckless and although their intentions are always good, their plans aren't always as solid as they could be. It makes their decisions very believable...well, in so far as a teenage dragon and troll going up against other fantastic creatures in disguise can be considered believable. But there's tons of chases, lots of precarious situations and just the right amount of snippy humor thrown in.

Summed up, this is a thrilling and fun ride into a world which is very familiar, but full of fantasy. Anyone into a little more light-hearted but still adventure filled urban fantasy is sure to love this.

A great new book for the YA/NA Urban Fantasy genre and a great start to a new series.

By Janis - Eclectic Mumma

I would like to thank Curiosity Quills Press for a free ARC of this book in exchange for an open and honest review.

Move over Ms MacAlister and her Wyverns – there’s a new type of dragon in town! Well, half-dragon... and not just one town, a few towns... and other places.

I loved this book! Being a huge fan of Urban Fantasy and world’s within our own that have a good dash of reality, a large sprinkle of humour and a dollop of sarcasm – how could I NOT love this book?

And thank goodness for a book that contains teens, supernatural creatures and NO SPARKLY VAMPIRES! Hoorah! I do love it when you get writers who know how to write a great book and break free of those horrible cookie cutter moulds that seemed to restrain the Urban Fantasy genre for so long. We need more books like this! So glad it appears to be the first in a series. Please put me down for the next one!

Okay, so now I try and talk to you about the book without giving away the plotline... as, seriously, you want to know about the story, you need to read it. ;-)

But basically Allyson is your typical teen outcast with no true place to call home, always on the move and with more than the usual pimples of puberty to deal with. She meets someone she really connects with, finds out there is more to her life than what she thought and is then thrown into an adventure that introduces both our protagonist and the reader to the world of the Kin and all that is going on. Seriously, read it. My blurb does it no justice.

Would I recommend this book to others? Yes I would. Lovers of the Wyvern series by Katie MacAlister, or Other Worldly book like the Hollows by Kim Harrison or even Mary Janice Davidson will enjoy this book. Though it is more of a YA genre than they are as the main characters are teens and not the twenty somethings of the series I’ve mentioned. Still, ‘Acne, Asthma, and other signs you might be half dragon’ is not your typical teen Urban Fantasy (see my comments about the lack of pretty fanged wonders) and so really is worth a read.

Would I buy this book for myself? Yes I would. And I look forward to the next in the series. Ms Rocford’s style is light, refreshing and she sets a good fast-paced scene that keeps you reading and kept my ‘One more chapter’ mantra going. So this book, series and author are definitely ones I will keep on my list of things to remember.

In summary: A well written, fast-paced YA Urban Fantasy where reality will still make even the supposedly graceful and wise dragon’s bunny hop from time to time. Well thought out, highly entertaining and a fantastic first book in what looks to be a great new series. Well worth you checking out tomorrow!
