The success of the Protestant Reformation depended vitally upon the industry, piety, and learning of the first generation of Reformers. Among them, none worked or prayed or studied harder than Iohannes Oecolampadius, the great Reformer of Basel, Switzerland. This volume presents his lectures on Genesis 1-3, translated for the first time into English. These lectures take us back to the heady early days of the Reformation, where we find Oecolampadius skillfully negotiating the dense thicket of perplexing questions that had long surrounded the story of Creation and Fall, boldly reforming the ancient traditions of Christian exegesis by the application of the Reformed conviction that sinners are justified before God by faith alone. He also did what only a learned humanist scholar like him could do, bringing to his aid the insights he had gained through his study of the Hebrew text of Scripture as interpreted in rabbinic Judaism and through his wide reading in the sermons and commentaries of the eastern Church Fathers.

In these lectures, delivered only months before his untimely death, Oecolampadius poured out his very life for the sake of the Reformation in Basel and the formation of the city's first generation of Reformed pastors.

A much needed translation, helpfully printed alongside the Latin.

The study of the Reformation has only benefitted from increased study of those reformers "in the wings". Unfortunately, the works of those other than Luther and Calvin have long been hidden from English speakers, meaning that students do not encounter them until they have gained a mastery of Latin, German and French and a tolerance for microfiche.

Mattox's translation, printed opposite the Latin text, is an excellent contribution to this larger project of making accessible a broader range of reformers, and his brief introduction brings his experience as a Reformation historian and scholar of Genesis commentaries to bear in providing helpful background. Hopefully, Mattox will continue to publish translations of Oecolampadius' work and help bring this

important reformer to the attention of English-speaking readers of the Reformation.
