# CHIRON AND THE HEALING JOURNEY BY MELANIE REINHART PDF

With the discovery of Chiron, a new dimension was opened in our understanding of how astrology reflects the soul's journey of awakening.

Here is an indispensable reference for those who seek to understand Chiron's meaning in the horoscope. Melanie Reinhart's work demonstrates a rare combination of careful research, innovative thinking, thoughtful cultural commentary and inspired interpretation, as she explores the archetype of the Wounded Healer or Shaman.

"Suffering is present in everyone's life, but relating with wisdom and compassion to our own experience turns 'poison into medicine'. Thus we develop the awareness which both accompanies and also initiates new stages of our spiritual journey."

This book has accompanied the healing journey of thousands of people all over the world, and has been translated into six languages. Considered by many working astrologers as the definitive original text on the subject, this book gives detailed, thoroughly researched information on Chiron's astronomy and mythology, its placement through the houses and signs, as well as aspects to the major planets. New material which features in this edition includes discussion of the process of the 'Chiron Return' which occurs at age 50, an expanded review of Chiron as representing our current 'Zeitgeist', and extensive material on the astronomical picture.

Chiron, once a celestial anomaly, is now in a class of its own. In the 1990s, exciting astronomical discoveries yielded a new category of objects - 'The Centaurs'. Chiron is considered the prototype of this group which comprises the short-orbit comets that cross the paths of the planets from Saturn through to Neptune. The symbolism is perfect, as Chiron is that luminous thread of consciousness which links different levels of the inner and outer dimensions of our human experience, helping us make sense of our suffering in a deeply personal way, and thus to release our attachment to it.

This book is a healing journey

By W. Parfitt

Melanie Reinhart is an astounding astrologer, richly knowledgeable and deeply intuitive. This completely new edition is a truly Great Work, matching astrological insight with depth and height psychology and a meaningful exploration of the significance of Chiron in the modern world.

One of Reinhart's great gifts is drawing the reader into deep discussions of profound astrology where the meaning transcends any need for prior knowledge of the subject.

As for any suggestion of negativity, if you are willing to look at the shadow side of yourself, this book will help you not hinder you in owning and integrating what you find.

Worth every penny!

By Tide Fan

I was hesitant to purchase this book as it is a little pricier than most of the astrology books I currently own but I am so glad I did! I have another book on Chiron but this one is very real and meaningful. If you are looking for insight on Chiron this is the book for you.

Chiron, the wounded healer

By Eric Dujardin

Just as the moon was conjunct Chiron, I got this message in my mailbox: Eric, Would You like to share Your experience with «chiron and the healing journey» by melanie reinhart?

The answer is «yes». this is one of the books that I bought first in paperback, and second as kindle download.

The asteroid chiron does not confine itself to a specific area in the chart, but it tends to alter the frequency level of the planets it gets into contact with. It catalyses a deep initiation process on the backdrop of everyday problems as loss, illness, insecurity etc.

Stanislav Grof coined the term «spiritual crisis», which applies nicely to shiron's shamanistic way of opening and healing the deep old wounds.

I find «chiron, the healing journey» a wonderful book for the astrologer as well as for those simply engaged in psychic development, mythology and shadow.

To me, this book is an effective tool in the quest: «know thyself».
