Things haven't been easy for Emily West. She's just moved out of her mother's home, and out from under her thumb, to a new city across the country. Sure, she loves her family, but it was definitely better when they loved each other from a distance. For the first time in her life she's all alone, but she's also happy.

Special Agent Reece Knight's latest case has him completely stumped. He's been an FBI agent for four years, but he'd never had one like this. There are no leads and no witnesses. At least, none that have ever survived. Someone out there is killing women in his town, and Reece is going to bring him down.

Then, Emily's peaceful night is interrupted in a way that scares her half to death and shakes the foundations of her entire world. This isn't something she can go to the police about, but if she doesn't do something she'll be left to face a killer alone.

In desperation, she reaches out to an old friend, Hannah Mitchell and her US Marshal boyfriend Luke. What she tells them sounds familiar to Luke, too familiar. His buddy Reece has been chasing a killer with the same M.O. for months. No one knows just how he manages to lure and kill his victims in major cities without being seen, and now Emily might just be the only person to ever escape with her life. A life she might not have for long if Reece can't protect her from a serial killer, a man that's tasted her fear once and doesn't intend to fail again.

This is book 1 in a romantic suspense series. Emily and Reece's story is complete. The book contains a cliffhanger introducing the next couple in the series.

Hot Hot HOT! Jamie Garrett nails it once again!

By Amazon Customer

Love me some J.G.! I really liked how Emily was written as a strong character yet her insecurities came off as sincere. She felt real and relatable and her relationship with Reece was sensual, sweet and very hot. The technical aspects are written in a clear way (in that you don't feel like the FBI terms are super complicated and flying over your head) and the story flows nicely. Love, action with a little psychic action thrown in and wrapped with a big ole pretty bow? What else can you ask for? If you're a big romantic suspense fan, you just can't go wrong with a Jamie Garrett novel. I loved it and so will you!

I hear voices in my head...

By Lexi A.

This is my first read by this author and I was gifted a copy in exchange for an honest review but I can honestly say that I am now a fan!

I love his this book was more than mushy love story fodder and was full of suspense along with a hot FBI agent. Reece Knight doesn't believe in psychics but after hearing what Emily has to say he believes in her. Things aren't all rainbows and unicorns though and the two have a lot to overcome before things become easy.

By the end of this book I was very anxious to know what is gonna happen next for those two and I can't wait to read more very soon!
