The simple solution to complex accounting

You don't need a genius IQ to ace your financial accounting curriculum. The only prerequisites are a little discipline and a comprehensive tutorial devoid of confusing jargon.

Financial Accounting DeMYSTiFieD presents all the concepts and skills you need, in a language you understand. Designed to let you learn at your own pace, it explains all the rules for preparing and reporting accounting information to parties outside an organization. Then, you'll get details on basic financial accounting concepts, valuing inventories, accounting methods, stockholder's equity, receivables, and more. Featuring end-of-chapter quizzes and a final exam, Financial Accounting DeMYSTiFieD teaches you the ins and outs of financial accounting in no time at all!

This fast and easy guide offers:

- Expert coverage of financial statements, cash and short-term investments, receivables, cash flows, liabilities
- Tips, techniques, and insights that drive home key financial accounting principles and theories
- Hundreds of worked-out examples, chapter-ending quizzes, and a final exam to reinforce learning and pinpoint weaknesses
- Specific recommendations if you're having difficulty with certain subtopics

Simple enough for a beginner, but challenging enough for an advanced student, Financial Accounting DeMYSTiFieD is a shortcut to developing a working knowledge of accounting practices.

Five Stars

By Amazon Customer

Product very helpful in grasping concepts

2 of 3 people found the following review helpful.

Great Book for Anyone Wanting to Learn Accounting!

By R Willie

I've carefully reviewed this book and can definitely say without question that it is well worth the price! Easy-to-understand discussions of basic accounting principles, well-labeled examples, exam-type problems in multiple-choice format, and excellent explanations of correct answers make this book a real winner. I always recommend it to my accounting students!

3 of 5 people found the following review helpful.

Needs a second edition to correct and clarify

By GoClick

I found reading this book to be frustrating because of typographical errors; and because I found the explanation of certain concepts to be unclear. I feel a second edition with more rigorous editing, particularly of the figures and formulae would greatly benefit the book.
