just like it said!

By Jojoanne

I ordered this book yesterday and had to do a one day shipping for 3.99 because I needed it for my class tomorrow. What a great thing that amazon has going on with the student offer. Anyway, condition of the book is great and exactly what was listed in the description box.

0 of 0 people found the following review helpful.

lots of good stuff

By Marillyn Goepfert

This book is easy to understand and has tons of information on testing, what's valid and reliable what isn't.

I highly recommend it for a refernece book

excellent

By Anthony Muzquiz

Good book for a cheap price. It is definitely going to help me in my class this semester and have not found anything wrong with it.
