MINE SERIES BOX SET BY JANEAL FALOR PDF

In a world where only men can do magic, and women are bought and sold like cattle, five girls stand up, determined to shatter the oppression.

You Are Mine

Serena knows a few simple things. She will always be owned by a warlock. She will never have freedom. She will always do what her warlock wishes, regardless of how inane, frivolous, or cruel it is. And if she doesn't follow the rules, she will be tarnished. Spelled to be bald, inked, and barren for the rest of her life—worth less than the shadow she casts.

Then her ownership is won by a barbarian from another country. With the uncertainty that comes from belonging to a new warlock, Serena questions if being tarnished is really worse than being owned by a barbarian, and tempts fate by breaking the rules. When he looks the other way instead of punishing her, she discovers a new world. The more she ventures into the forbidden, the more she learns of love and a freedom just out of reach. Serena longs for both. But in a society where women are only ever property, hoping for more could be deadly.

Mine to Spell

Cynthia has always hidden from her father's hexes behind her older sister. When her family gains independence unheard of for women, she's relieved that her days of harsh punishments are over. But as her seventeenth birthday approaches—the typical age to be sold to a new master—death threats endanger her sisters. She now faces two options: run or meet society's expectations.

For once, Cynthia isn't going to let her older sister shield her from the problem. She's going to prove to herself, her sisters, and society that her family isn't a threat to their traditions. She willingly chooses to be purchased by a new master. A bold step that takes her somewhere she never thought she would go and to a man she might possibly fall in love with. With his help, she may just find a way to save her sisters while discovering how to stand up for herself. If she lives long enough.

Mine to Fear

Waverly resents being sent home to Evando just as things are getting intense in Chardonia. She can't just sit in safety while her friends suffer under oppression and restrictions simply because they are women.

Upon returning to Chardonia, she discovers conditions have degraded faster than she thought possible, and her mere presence puts her loved ones in grave danger. When the Grand Chancellor calls for a change in laws that threatens the lives of her friends, her family, and anyone who doesn't comply, her only option is to run, with both friend and foe.

As the stakes grow higher with each passing day, Waverly must become the leader she's never been, or her

life, and the lives of all those she cares for, will be lost.

Sacrifice of Mine

After a ravaging war, Bethany and her family are forced to flee to Envado. There, women are safe from the oppressive rule of male owners. When her pursuers draw too close, Bethany stays behind to buy her sisters time to escape and she's captured.

She's turned over to a depraver who tarnishes her. Now bald, branded, and barren, she's worth less than the shadow she casts. From this lowly place she leads the tarnished to overthrow the Grand Chancellor--the man behind Chardonia's oppressive rules against women and the tarnished. If they fail to defeat him and his supporters, all will be lost.

Mine to Tarnish

Katherine's place is the same as any woman's—on the shelf next to the dresses and bolts of cloth. When she's sold to a warlock, life grows even bleaker. Her new owner is as old and rancid as he is cruel, driving her to do the unthinkable: run.

Nothing prepared her for being on her own. And she's definitely unprepared for the warlocks hunting her down. But she must stay one step ahead because if caught, the best she can hope for is death.

A great young adult novel about women being owned and fighting the justice system.

By Vic

I enjoyed the series. It talk a lot about domestic violence and women rights. I enjoyed the way each of these women endured and conquered.

Some people talked about how slowly the romances developed. These were teenagers and since I have a

teenager I would hope a real relationship would take a while to happen. They should take their time in becoming friends before moving on. It has magic and adventure.

This series was really fun to read

By Chelsey

This series was really fun to read. In fact, I read the whole series in less than a week! Five very strong women face a cruel world where men possess and use magic while women are owned and used for the magic in their blood. Through their journey, they discover their worth as human beings and fight to change their world for the better.

Liked the first

By Cjfield

Liked the first, really liked the second, the third wasn't that great, and the 4th was just okay. Weird pacing at times through the books, some scenes seemed to drag on forever and other times, it wish it would just slow down and enjoy the moment. Takes many of the character couples forever to get together. Very clean series as far as sexual content. I would probably recommend to buy the first two books, but stop right after the tournament winner is announced.
