Best money spent for multiplication review bc it lets you ...

By SuJung

Best money spent for multiplication review bc it lets you use over and over which is exactly what kids need for learning multiplication (constant repetitious review). Have been using it for over a year now and works great. Also have the old alphabet set and used that for both my two older kids over a span of 3 years and are still in good enough shape that my third will also use it covering not s total of 8 years of use!!

Recommended

By MChance000

Easy to use format for teaching an important concept in basic math, multiplication. Just wipe away errors and keep going or clean the slate for repetition. Good set of teaching practices, through and interesting.
