The Book Allows the House to Smell like a Pizzeria off the Bay of Naples!!

By John William Banchemo

This is an amazing pizza cookbook!!! Though I have about 25 pizza cookbooks collected from both here in the States and in Italy which, of course, should be more than enough information at my fingertips, I find myself returning to Barilla's PIZZA constantly. I really appreciate that every pizza recipe has its full sized photo of the finished product, and in high definition. I use the book for my catering service where visuals are most important, hence I always know exactly what the end product is to look like which saves me considerable time in research. In this series of Barilla cookbooks where each book is cut to the shape of whatever the book's genre is (potatoes, cheese, eggs, etc.), though they are very good (I use them all) they are on the somewhat small side, but with PIZZA it is full sized with a photo of each recipe also life sized and realistic enough for a fly to land on it for a meal. Just opening the book allows the house to smell like a pizzeria off the Bay of Naples!! I've been a pizza cook in Italy and California and can attest to the fact that PIZZA's recipes are as found in Italy and copied here in California.
