READING AND VOCABULARY FOCUS 3 BY JESSICA WILLIAMS PDF

National Geographic Reading and Vocabulary Focus is an all-new, four-level reading series that provides the essential reading skills and vocabulary development for maximum academic readiness. Readings grounded in rich National Geographic content tap into learners' curiosity about the world, naturally encouraging inquiry and opportunities to synthesize information. - A comprehensive, three-part vocabulary development program builds student confidence as learners encounter new or unfamiliar words in academic texts: - Academic Vocabulary sections develop the language that students will encounter in academic readings. - Multiword Vocabulary sections identify words that are commonly grouped together and then prompt learners to work with them in different contexts for enhanced comprehension. - Topic Vocabulary is presented as a reading preview strategy to enhance learner comprehension of the text.

Students liked it, but hard to teach from

By Laoshi

My students really liked this book. I personally found it hard to teach from, though. Probably the best part of the book is the vocabulary section. The book presents fixed expressions as part of the vocabulary section. These are interesting and very useful. The readings are also quite interesting. The part I didn't like is that the reading strategy section is very thin. You really need to supplement the book and you really need to know how to teach reading. There are also some errors in the book. There is one chapter where cause/effect expressions are taught (since, because of, as a result). Then you are supposed to find the expressions in the reading. Unfortunately, NONE of the expressions taught are actually in the reading! NONE!
