My only regret is that I can't give it less than 1 star

By Ray C

There is a special place in hell for authors and publishers that produce \$5 books and charge \$79. The book is only 150 pages long and can be read in a couple of hours. It also took that long to write since there was not a single new thought or idea in the material. DO NOT waste your money on this.

Superb Book for Global Markets

By kevin tewis

Great detail for basing your texts on the more applied focus and especially digital and the future of banks which is needed, a good base to start from!

Great resource for those in the financial services industry!

By Barbie Sullivan

Dr. Bexley is a professor of mine at Sam Houston State and we've used his book consistently throughout the course. It is extremely well written and easy to follow. Dr. Bexley has spent many years in the banking industry and is extremely knowledgeable in the field. I am honored to have him as a mentor and can't wait to pick up his next book!
