Genius

I also bought this book after seeing it in UnofficialSquaw.com's G.N.A.R. movie. This book is well written, easy to understand, and even provides great pictures to help you rip up Squaw's terrain. Even if you are not planning on shredding the lines in this book; there is enough to read for everyone to be entertained. Shane McConkey's bonus chapter in the end is enough to make this book worth buying. A must for anyone who wants to see what Squaw really has to offer.
