By Dolphin Totem

This mystery surrounds the death of four men who, at first, seem unconnected. It also involves a young woman who sets herself afire. Not only are the incidents related, they are retaliation against the destructive business of child prostitution and the insidious harm done to the individuals and their families. The brother of a young molested girl seeks restitution by murdering the men causing the problem – including his own father.

By Chester Wood

If the perpetrator was older and the ritual not bizarre it would be more believable. Other than that the plot is intriguing and as always the private lives of Wallender and those around him gain our sympathy.
