Russian literature

By Stergios D. Marangos

This is simply a collection of great Russian literary works - from Dostoevsky, Lermontov, Tolstoy, Pushkin, Chehov (I may be missing an author or two) - in Russian. Yes, the text within is not in English, but in the original Russian form. I would recommend this anyone of mid to advanced level Russian proficiency, as on the margins of the texts it clarifies the meaning of many antiquated Russian words and phrases, and also provides a few definitions of some non-traditional words. These works are also much more beautiful to read in Russian than in English, however that may be a personal bias of mine. English translation tends to ruin most literature that has origins elsewhere. Either way, it is worth reading these authors in their original form if you have the ability.

Excellent selection of stories

By Zornosaur

This is great for the advanced student of the Russian language. I love the fact that they have vocabulary words in the margin, but they have less and less throughout the book, helping you to learn.
