THE MIDNIGHT HUNT (MIDNIGHT HUNTERS SERIES) BY L. L. RAAND PDF

Medic Ryon Drake has never been good at following protocol, so she doesn't think twice about rendering emergency care when a young girl's life is at stake--even if the girl is in the throes of Werfever and any sane mortali should know better. It isn't the bright shining pain of the bite or even the wrenching agonies of the fever that convinces her everything in her life has changed. It's the way she feels about the blonde with the silver-blue eyes leaning over her hospital bed when she finally wakes up. Sylvan, the Alpha of the Adirondack Timberlake Pack—the one woman Drake can't have. And the only one she wants. The first in the Midnight Hunters series.

Too much primal behavior, not enough human elements

By Kindle Customer

I was so excited when I read the sample, it seemed interesting and pulled me in. I was expecting so much more to this, a little romance some chase before the two main characters got together, but no. Everything about this was all about the raw base nature of the Were's and hardly no human element at all. Too much sex, way too much sex. Not enough emotion, I could not relate to one character and all the nudity and dominance showing licking and biting was weird and overdone. It was like reading about animals that moonlighted as humans occasionally. I was disappointed to say the least. I just discovered Radclyffe and I like a few of her romances and I guess I thought she would bring some of that romance element here to this series, but I was mistaken. If your looking for a cold, sex driven story with not enough interesting plot to not care about all the raw sex, then this is for you. I gave it two stars because the writing was not bad, but that's all that WASN'T that bad.

Utterly Horrible

By Book Lover

This is one book that I truly had trouble finishing. I wouldn't classify it as romance so much as bestial sex on steroids. Don't get me wrong, I'll enjoy a good romance book as much as the next person, as long as there's actual *romance* involved. But this was just sex, sex, and more sex (at one point, I actually said "Not again.") and there was little emotion in it. I never felt the love between the main characters, and certainly never saw any character development. It felt like Raand was going too far into the primal, bestial mind of animals, and it reflected in the prevalent, (often violent) sex scenes. There wasn't much of a plot, either, and at the same time, I never felt I got to know any of the characters. There was no depth. Too many scenes of characters going into extremes of rage or arousal, with little in between. Honestly, this book fell far short of my expectations. I certainly won't be reading the others in the series. A big disappointment.

The bit of politics thrown in was pretty predictable and of course you can't trust vampires but ...

By top cat

This is prob with a cheesy supernatural blanket over it. I'm being serious. The plot is weak the characters may at some point have gotten interesting if 95% of them weren't always thinking about or having sex. The sex wasn't interesting but it was abundant. The characters incited in me more irritation than intrigue. The multiple species had a somewhat unique interpretation it just wasn't an interesting one and again revolved mainly around sex in their mind and their sexual interactions with each other. The relationships seemed almost solely based on sex. The bit of politics thrown in was pretty predictable and of course you can't trust vampires but the story itself was weak. People really seem to enjoy this but book and this series I bought this one to give it a shot before venturing on to the others but after reading this I can say with confidence and no disappointment whatsoever that I will NOT be reading anymore of this series. And this is perhaps the fifth book by this author (under this name or otherwise) that I've read and I've realized her style just doesn't seem for me this book was the nail in the coffin. However even with that being said I don't think my personal preference in authors or writing style are what turns me away from this book I really just don't like it. I suggest you borrow it if you can to see if it's your taste but I really don't think it's worth a buy I'm sorry.
